

Supply Chain
**Framework
and Strategy**

VCARE Academy is the world's first knowledge body, established with its primary focus on the value chain. VCARE Academy's aim is to focus on driving 100 percent practical and operational education, teaching both the WHAT and HOW of supply chain operations.

**Discover the
next generation
learning**

Program objective

It's no secret that the field of supply chain management is thriving. Businesses all around the world have changed their strategies and, more crucially, globalization and competition have forced businesses to rethink how they operate profitably. It's a supply chain strategy that impacts every aspect of our lives, from our cars to our clothes to the food we eat. Today, the supply chain is as important as sales, marketing, and finance in many businesses. This is because there is a lot of variation in consumer demand, and products are available at a lower cost.

Who should attend

- **Individuals who are active in supply chain improvement projects or the implementation of supply chain systems.**
- Organizations that want to be more competitive can give their executives a view of the end-to-end supply chain.
- **Professionals engage in the company's supply chain operations.**
- Procurement, transportation, logistics, distribution, and warehouse professionals.
- **Suppliers, distributors, and inventory professionals.**
- Operations, production, and manufacturing professionals.

Program advantage

Earn 75 (CMP) Certification Maintenance Points for the Mini-Master Class and 150 (CMP) Certification Maintenance Points for the Master Class towards your VCARE Academy certification programs.

Program benefit

- **Demonstrates what best practices are and how they should be applied in the supply chain.**
- The supply chain's critical components are explained as follows: plan, source, make, deliver, and return.
- **Developing end-to-end supply chain operations.**

Learning outcomes

- **Developing a supply chain strategy that includes everything from forecasting to inventory management to cash flow.**
- Focused on the supply chain network as a whole, not just the physical execution of the supply chain.
- **The basics of how the supply chain works.**
- Providing a well-structured process and methodologies for successfully implementing a supply chain strategy.
- **The importance of planning, sourcing, manufacturing, and delivering in supply chain management.**
- The involvement of a customer in supply chain management.

About Program

The Mini Master and Master Classes offered by VCARE Academy are revolutionary, impactful, and dynamic courses. They provide an immersive learning environment that is more adaptable than traditional methods so you can make the most out of the learning journey.

Learners are provided with guidelines on comprehending the concepts, frameworks, and approaches, thus helping learners overcome obstacles and create a path to success. In addition, this allows them to improve their abilities and skills to open their minds to new perspectives.

Program Formats

Both programs have the same program outline, but the differences between a Mini-Master class and a Master class are based on the duration, depth of knowledge, information, examples, discussions, and mode of examination.

The program is offered in two formats: Mini Master Class and Master Class, which enable learners to unlock their potential educational and professional opportunities. The program's two formats give participants the freedom to learn and advance their careers, regardless of their prior experience. It also gives them more choices to find one that fits their learning style, budget, and career goals.

Mini-Master class

The Mini-Master Class is perfect for professionals who want to build their concepts, frameworks, and familiarity with approaches in as little time as possible without spending a lot of time, money, or resources.

Master class

The Master Class has three times as many insights as the Mini Master Class and a much more advanced and detailed knowledge base.

Awarded Digital Badge

Upon completion, you will be awarded a digital badge that can be shared across all social media platforms and promotes recognition for your accomplishment.

Certificate of Completion

On successful completion, you will receive a certificate with verifiable credentials and it will be valid for a lifetime.

Online on-demand learning center

After registering and paying the fees, you will be granted access to the on-demand learning center for 15 to 90 days, depending on the type and mode of program, to complete the instructor-led online training and preparation.

Access the instructor-led self-paced recorded classes an unlimited number of times. These are good for learners anytime, anywhere with playback speed control.

Unlimited revisions empower understanding of concepts and guarantee success when preparing for the final exam.

Pause, repeat, take notes, and ask questions by submitting them.

Each learning module has virtual instructor-led self-paced recorded videos.

Available 100% online on-demand, 365 days of the year.

Learning resources

Connecting minds and inspire learning - 100% Free of Charge

Learning resources are VCARE Academy's corporate social responsibility (CSR) initiative to assist professionals all over the world in their quest for knowledge and learning. These resources are completely free of charge and open to the public as part of our support for local and international supply chain communities.

Knowledge center

Having the knowledge is one thing; knowing how to use it is something different. In collaboration with the subject matter experts, the VCARE Academy's knowledge center provides recommendations and guidance on how to manage global value chain complexity.

Open secrets

Open secrets provide recommendations on how to deal with problems in the value chain that are difficult to solve because the value chain is full of unpredictable challenges and open secrets showcase insights on how to manage value chain difficulties.

Bicara supply chain podcasts

Bicara Supply Chain is committed to driving global perspectives to embrace technological adaptation in improving process efficiencies by highlighting and showcasing solutions to the industry's most complex challenges in the twenty-first century.

White papers

VCARE Academy's white paper resources provide in-depth analysis and guidance on issues in the value chain and propose recommendations with specific solutions to overcome the challenges.
